TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Precious Metals Mining (Eugene Glover), Rainbow Mine, S/003/013, Box Elder County, Utah

Date of Inspection: June 12, 1995
Time of Inspection: 4:00 p.m.
Conditions: Clear, hot
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: Document site conditions

This site is accessed by a two lane trail off the Raft River Narrows Road, approximately 0.8 miles west of the Almo - Yost Junction.

It appears this site has not been worked this season yet. There were two small pits that were started. Total disturbance is less then 1/10 acre. It does not look like he has had very much mechanized equipment onsite; however, as you turn onto the two track road that went up to where these pits were, there were a couple of signs warning people of blasting in the area, due to the mining at the Rainbow mine.

The vegetation in this area is a Pinyon/Juniper type with a very low inventory, less than 10% cover.
